Premium, ultramodern design

The Pure Water Dispenser™ 300 Series offers premium, ultramodern appliance styling with a super-slim tower and innovative features that blend seamlessly with any kitchen décor – especially high-end appliances. Perfect for the home or office, the 300 Series includes a large, ergonomically placed dispensing area and fast-flow hot and cold electronic dispensing to quickly fill coffee pots, pet bowls, water bottles and everything in between! Enjoy refreshing cold water for sports activities, cooking and hydration, or fast and convenient hot water for mixing beverages and ready-to-eat meals. Plus, there's a built-in safety lock for hot and cold water dispensing. Simple to install and easy to maintain, the premium 300 Series water dispenser includes a 1-year limited manufacturer's warranty.

Innovative, versatile features

- Modern appliance styling; complements any décor
- Sleek, space-efficient design – smaller footprint compared to other water dispensers
- Ergonomically placed spigot for easy dispensing
- Hot and cold soft-touch button controls and temperature-ready indicator lights
- Large dispensing area lighted for convenience
- Fast-flow electronic dispensing quickly fills water bottles, coffee pots or large containers
- Large 1-gallon cold water tank and 1.2-liter hot tank ensure plenty of cold and hot water is always available
- Proprietary technology provides energy efficiency, reliability and low noise
- Accu-Temp® technology – serves water at the proper temperature every time
- Stay-Cool® technology – water is chilled and ready to serve
- No Leak® EZ-Fill® system helps minimize the risk of leaks
- Removable drip tray for easy cleaning

Easy to maintain and convenient to use

- Freestanding floor unit
- Top-loading water bottle dispenser
- Accepts 3- or 5-gallon water bottles
- Built-in safety lock function for both hot and cold water
- Food-grade stainless-steel hot tank and cooling tank
- High-quality and energy-efficient compressor for reliable, consistent performance
- Easy to maintain; 1-year limited manufacturer's warranty

Premium, revolutionary design

The Pure Water Dispenser™ 500 Series offers smooth, sleek appliance styling with advanced design features that make it simple to operate and easy to maintain. With the bottom-loading 500 Series' advanced ergonomic design, you simply slip a full water bottle into position with little effort and no heavy lifting. And the flashing LED signal light lets you know when the water bottle is almost empty. Plus, the spacious dispensing area and fast-flow hot and cold electric dispensing quickly fill coffee pots, water bottles, pet bowls and everything in between! Simple to install and easy to operate, the revolutionary 500 Series water dispenser includes a 1-year limited manufacturer's warranty.

Advanced, versatile features

- Modern appliance styling with faux brushed stainless-steel accents; complements any décor
- Sleek, ergonomic design – smaller, space-efficient footprint compared to other water dispensers
- Unique bottom-loading design – no need to lift and turn full water bottles upside down
- Conveniently placed spigot for easy dispensing
- Night light guides user to faucet spouts
- Hot and cold button controls
- Large dispensing area lighted for convenience
- Fast-flow electronic dispensing quickly fills water bottles, coffee pots or large containers
- Large 1.6-gallon cold water tank and 1.1-liter hot tank ensure plenty of cold and hot water is always available
- Proprietary technology provides energy efficiency, reliability and low noise
- Removable drip tray for easy cleaning
- Simple to install in any room with a GFCI (ground fault circuit interrupter) electrical outlet

Easy to maintain and convenient to use

- Freestanding floor unit
- Bottom-loading water bottle dispenser
- Accepts 3- or 5-gallon water bottles
- Easy to sanitize
- Built-in safety lock function for hot water
- Food-grade stainless-steel hot tank and cooling tank
- High-quality and energy-efficient compressor for reliable, consistent performance

PureFlo® Brio Premier

POU Water Cooler

The semi-touchless PureFlo® Brio point-of-use (POU) water cooler is a convenient, efficient way to provide hot and cold purified drinking water in your home or business. This freestanding unit incorporates advanced carbon shaker filtration technology to ensure your family, employees and guests enjoy an endless supply of pure, delicious water at the touch of a button.

Carbon filtration benefits

- Removes chlorine, chloramine, chemicals, pharmaceuticals, taste and odor
- Leaves minerals in the water
- Filtration components certified by the Water Quality Association (WQA) to meet standards: NSF/ANSI 42, 401, 372 & CSA B483.1

Carbon Shaker™ filtration technology

- High-quality filter media attached to the cooler compressor
- Compressor vibrates the filter and media multiple times per hour, creating new pathways for water
- Extends filter quality, longevity and effectiveness over traditional carbon filters
- Longer filter life helps lessen environmental impact

Valuable everyday benefits

- Dispenser connects to the existing water supply to ensure water is always on hand and eliminate the need to store bottles
- Child safety lock on the hot water spout to help prevent accidents
- 100% stainless-steel cold and hot reservoirs for water purity and cooler longevity

Convenient professional installation

- Hard-plumbed
- Does not require a drain connection

Sleek design

- Fingerprint-resistant finish
- Easy to clean
- Compact design fits most spaces
