Subject: January 1, 2026 Pricing and Supply Update

Dear Valued Customer,

As shared in June, CFS Brands remains committed to ensuring a dependable supply of the widest and deepest assortment of products across the foodservice, hygiene, and healthcare market channels. Throughout this year, we have taken a disciplined approach to pricing — implementing just one adjustment while managing significant shifts in global trade conditions.

Since mid-year, tariff policies have continued to evolve, most notably under Section 232 metal regulations. Base tariffs increased from 25% to 50% in June, with additional product categories added in August at similar levels. Several country-specific tariffs have also risen materially since that time. These changes have created enduring cost pressures across products, raw materials, and logistics.

In light of sustained tariff and input cost increases, pricing across select product categories will adjust beginning **January 1, 2026**. While impacts vary by item, we expect most product families to fall within a **0–5% range**, close to that which might be expected in a normal inflationary but non-tariffed year. Updated pricing files for CFS, Winco and GET will be provided by your sales representative. All acknowledged purchase orders placed prior to January 1 will be honored at current pricing.

Despite these challenges, our priority has remained clear: protect our customers and maintain reliable product availability. We absorbed substantial cost increases throughout the past six months, ensured uninterrupted service, and continued to invest in supply chain strength. These efforts — supported by our internal team of 30+ supply chain and manufacturing experts — helped keep inventory flowing and pricing stable during a period of volatility.

We enter 2026 with an even stronger foundation. Majority of our portfolio is manufactured in the United States, Mexico under USMCA, or is supported by multiple redundant qualified global sources. Our long-standing factory partnerships and continued investment in materials, logistics, and production capacity position us to navigate ongoing trade and cost dynamics with confidence and resilience.

We sincerely appreciate your partnership, collaboration, and trust. CFS Brands remains committed to delivering reliability, minimizing disruption, and supporting your success in the year ahead.

Sincerely,

Trent Freiberg

STATEMENT OF TEMPORARY PRICE INCREASE

It is a difficult decision for We ,XIAMEN ITG PAPER, to make the statement here to ask you Individual food service(part of BradyPLUS),for the support to increase the current price by 25%.

This is a proper action reacting to the current high tariff and high shipping cost export to USA. Although we have the overseas workshop based In Thiland and Philippline, the material supply are mainly replying on the supply from our Chinese headquarter.. Therefore, the increasing ocean freight does has a dramatical impact on the production cost,leading to the final offer to your team.

However. we will definitely adjust our price as long as the situation is going back to normal status. We need your kind consideration and support to go through this extreme tough period.
